Specifications

Our 825 Series (Replacement for Chelsea 489 Series) Power Take Off (PTO) unit features a one-piece, cast iron housing that mounts directly on the 8-bolt transmission opening while providing torque capacity equal to Our 625 Series (Replacement for Chelsea 442 Series). This time-saving feature lowers your costs, reduces the risk of surface leaks, and allows for quick installation.

The 825 utilizes tapered bearings, which provide greater load capability in contrast to needle bearings typically used by other manufacturers. It also boasts a total of 36 output options including the popular 360-degree rotatable flange.

Design Attribute

Our 825 PTO offers several key features that make it extremely versatile and one of the best all-around PTO's in their line. A self-lubricating option is designed for transmissions that have difficulty getting lubrication to the PTO. Internal speed ratios are driven by eleven gears and ten shift options.

S&S Warranty

All components covered in this catalog are warranted for one (1) year / 100,000 miles from installation, or 18 months after purchase from S & S Truck Parts, LLC, whichever comes first. We warrant all new parts against defective material or workmanship when such parts are used in appropriate applications. We will NOT extend this warranty to parts where failure or damage was caused by misapplication, accident, or abuse. Unless otherwise stated, authorization from your salesperson is required to initiate any return for warranty. If our examination shows the parts to be defective, we will replace such parts free of charge. This warranty extends solely to replacement of defective parts; we disclaim liability for labor and/or special or consequential damages of any nature. If it is necessary to return any parts under this warranty, the buyer agrees to wait for settlement of his claim before any deductions are made in payments to S & S. Any expenses incurred without the consent of S & S will be disallowed.
